CAREER OBJECTIVE

I'm a UI/UX designer who lives for crafting super intuitive web and mobile experiences that just feel right minimalist, accessible, and built for real people. I dive deep into user research, sketch wireframes, prototype flows, test relentlessly, and iterate until everything clicks smoothly. Love locking down design systems and turning chaos into seamless apps that cut through the noise (shoutout to my toilet finder project that nailed urgency and hygiene on the fly). My 3D animation roots bring that extra spark of motion magic and storytelling flair to every pixel.

CORE SKILLS:

- UX Research & Strategy
- Wireframing & Prototyping
- Interaction & Visual Design
- Usability Testing & Iteration
- Design Systems & Accessibility
- Web & Mobile App Design

Tools:

- Figma
- Adobe Photoshop
- Autodesk Maya
- Canva
- Relume
- Blender 3D
- GitHub Copilot
- Lottie files
- Invision

RELEVENT EXPERIENCE

Role: UI/UX Designer Intern
Codalent | Oct 15, 2025 – Jan 15, 2026

- Designed user interfaces for modern web and digital products
- Created wireframes and high-fidelity designs focused on usability and performance
- Collaborated with developers to ensure responsive implementation

Role: UI/UX Designer Intern
Madeline & Co. | Jan 2026 – Present

- Tested and reviewed AI-generated brand strategy, brand design, and website outputs
- Identified workflow issues and usability gaps across product flows
- Documented bugs and provided structured feedback to improve system output
- Contributed to standardizing the design system and ensuring consistent user flows

FEATURED PROJECT

Role: Product Designer | Tools: Figma
EaseOut – Toilet Finder App (Sep 2025 – Nov 2025)

- Designed a complete mobile experience from UX research to high-fidelity prototype.
- Conducted user interviews to identify pain points around urgency, accessibility, and hygiene.
- Created user flows, wireframes, and a minimalist design system tailored for a public-utility service app.
- Designed intuitive UI screens optimized for quick scanning and real-time decision-making.
- Built interactive prototypes and conducted usability testing to refine user flow and reduce task friction.

PROFESSIONAL EXPERIENCE

Junior 3D Animator

Xentrix Studios (Nickelodeon Wing), Bangalore | May 2022 – Apr 2024

Projects: Monster High, Stan & Gran

- Strengthened skills in high-detail, polished, and dynamic 3D animation for global broadcast standards.
- Worked on Nickelodeon IPs with strict visual quality, timing, and storytelling guidelines.
- Enhanced character acting, emotional performance, and movement realism.
- Collaborated closely with supervisors to refine animation quality and maintain production pipeline consistency.

Junior 3D Animator

BYJU'S Pvt. Ltd., Bhubaneswar | Dec 2019 – May 2022

Projects: Internal Projects

- Produced 3D animations specifically for primary school children, focusing on engagement and clarity.
- Transformed complex educational topics into simple, visually appealing content.
- Delivered animations optimized for mobile and web-based learning experiences.

Trainee

Giant Wheel Animation, Bhubaneswar Mar 2019 – Nov 2019

Projects: Leo Da Vinci, Gobindgarh Fort

- Trained in character animation techniques focusing on posing, timing, spacing, and performance clarity.
- Assisted senior animators with blocking and polishing scenes.
- Gained experience working within a full animation production pipeline.
- Improved core animation skills through continuous feedback and mentoring.
